TARGET TITLE

Senior Frontend Engineer

PROFESSIONAL SUMMARY

Frontend engineer with 8 years building reliable, accessible web products. I specialize in React, TypeScript and Next.js, with a strong record of turning ambiguous product requirements into tested interfaces. I have led delivery across design, backend and QA while keeping performance, security and user outcomes visible.

EXPERIENCE

- Lead Frontend Engineer, Northstar Labs (2021-2025): built a Next.js and TypeScript candidate workspace used by 40,000 monthly users; reduced first-load time by 38%.
- Frontend Engineer, Orbit Systems (2017-2021): shipped React and Node.js features backed by REST APIs, Firebase authentication and role-based access.
- Introduced Jest, Cypress and CI/CD quality gates; partnered with accessibility specialists to meet WCAG 2.2 AA and documented tradeoffs in code reviews.
