SYNTHETIC TEST CV - FICTIONAL DATA - DO NOT CONTACT

TARGET TITLE

Senior Product Engineer

PROFESSIONAL SUMMARY

Product-minded engineer with 6 years of experience building React applications and customer-facing workflows. I enjoy balancing a clear user experience with maintainable TypeScript, measurable performance and dependable validation. Comfortable owning a feature from discovery through release.

EXPERIENCE

- Senior Product Engineer, Lumen Health (2021-2025): built accessible React and Next.js patient workflows, integrated Node.js REST APIs and improved completion rate by 22%.
- Software Engineer, Brightworks (2019-2021): implemented TypeScript components, Firebase data access and GitHub CI/CD pipelines.
- Added Jest and Cypress coverage, led code reviews and partnered with design on keyboard navigation and responsive behavior.

SKILLS

React, TypeScript, Next.js, Node.js, REST APIs, Firebase, Jest, Cypress, Git, GitHub, accessibility, performance, CI/CD, testing, product thinking, code review

EDUCATION

BSc Information Systems, National University of Singapore, 2019
