SYNTHETIC TEST CV - FICTIONAL DATA - DO NOT CONTACT

TARGET TITLE

Full Stack Developer

PROFESSIONAL SUMMARY

Full stack developer with 5 years of experience across Vue, React and Node.js. I have delivered internal tools and REST API integrations and enjoy debugging production issues. My recent work is moving toward TypeScript and Next.js, supported by a practical testing habit.

EXPERIENCE

- Full Stack Developer, Cedar Analytics (2020-2025): built Vue and React dashboards, Node.js REST APIs and PostgreSQL data views for operations teams.
- Web Developer, MarketLoop (2018-2020): maintained JavaScript applications, added Jest tests and coordinated releases through GitHub Actions.
- Led a migration spike from Vue to Next.js and documented performance findings; limited experience with Firebase and accessibility audits.

SKILLS

React, Vue, JavaScript, TypeScript, Node.js, REST APIs, PostgreSQL, Jest, Git, GitHub Actions, Next.js, debugging, testing

EDUCATION

BS Computer Science, Texas State University, 2018
