SYNTHETIC TEST CV - FICTIONAL DATA - DO NOT CONTACT

TARGET TITLE

Software Engineer

PROFESSIONAL SUMMARY

Software engineer with 3 years of experience focused on Python services and data workflows. I have supported a small React admin tool and understand REST API integration, but most of my production work is backend and automation rather than frontend product delivery.

EXPERIENCE

- Software Engineer, DataKita (2022-2025): maintained Python services, Django endpoints and scheduled data pipelines; wrote integration tests and GitHub Actions workflows.
- Engineering Intern, Peta Labs (2021-2022): fixed React form issues, documented APIs and helped QA reproduce defects.
- Interested in expanding React and TypeScript experience; no professional Next.js or Firebase ownership yet.

SKILLS

Python, Django, REST APIs, React, JavaScript, SQL, Git, GitHub Actions, Linux, pytest, integration testing, debugging

EDUCATION

BSc Mathematics, Universitas Gadjah Mada, 2021
