SYNTHETIC TEST CV - FICTIONAL DATA - DO NOT CONTACT

TARGET TITLE

UX Engineer

PROFESSIONAL SUMMARY

UX engineer with 5 years of experience translating design systems into accessible interfaces. I am strongest in HTML, CSS, React and user research collaboration. I have less experience with backend services and release automation, but I care deeply about keyboard support, clarity and inclusive outcomes.

EXPERIENCE

- UX Engineer, Common Ground (2021-2025): built React component libraries, documented accessibility decisions and partnered with designers on responsive prototypes.
- UI Developer, Paperplane Studio (2020-2021): delivered HTML, CSS and JavaScript marketing and account pages.
- Ran manual usability checks and contributed small Jest tests; no direct Node.js, Firebase or Next.js ownership in production.

SKILLS

React, JavaScript, HTML, CSS, accessibility, WCAG, design systems, Figma, usability testing, Git, Jest, responsive design

EDUCATION

BA Interaction Design, Taylor's University, 2020
