SYNTHETIC TEST CV - FICTIONAL DATA - DO NOT CONTACT

TARGET TITLE

Data Analyst

PROFESSIONAL SUMMARY

Data analyst with 6 years of experience turning operational data into dashboards and recommendations. Strong in SQL, Python and visualization. I have not built production React applications or owned frontend testing and accessibility work.

EXPERIENCE

- Senior Data Analyst, Prima Logistics (2020-2025): built SQL models, Python analysis and Tableau dashboards that improved route planning decisions.
- Data Analyst, SatuMart (2018-2020): automated spreadsheet reporting and presented weekly metrics to commercial teams.
- Collaborated with engineering on data definitions but did not own web application delivery or CI/CD.

SKILLS

SQL, Python, pandas, Tableau, Power BI, Excel, statistics, data visualization, stakeholder communication, Git basics

EDUCATION

BSc Statistics, Universitas Padjadjaran, 2018
