SYNTHETIC TEST CV - FICTIONAL DATA - DO NOT CONTACT

TARGET TITLE

Mechanical Engineer

PROFESSIONAL SUMMARY

Mechanical engineer with 8 years of experience designing manufacturing fixtures and improving production processes. Skilled in CAD, MATLAB and lean methods. I am changing careers toward software but do not yet have professional frontend, React or web application experience.

EXPERIENCE

- Mechanical Engineer, Aruna Manufacturing (2017-2025): designed tooling in SolidWorks, ran tolerance studies and reduced material waste through process improvements.
- Engineering Associate, Bumi Components (2016-2017): maintained drawings, supplier documentation and factory quality checks.
- Completed introductory programming courses; no production JavaScript, TypeScript, React, Node.js or testing experience.

SKILLS

SolidWorks, AutoCAD, MATLAB, mechanical design, GD&T, lean manufacturing, process improvement, quality control, Excel, project coordination

EDUCATION

BEng Mechanical Engineering, Universitas Diponegoro, 2016
